eMagazines Platform Transition

Current state • Proposal analysis • Recommendation • Next steps

THE PROBLEM

Zinio costs **\$90K/yr** and generates **\$48K** in channel revenue. iTunes generates **\$102K/yr** and doesn't need Zinio at all.

01 / Current State

Zinio relationship economics — May 2025 through Apr 2026

ZINIO 12-MO INVOICE AVG

\$7,508/mo

12 months May 2025–Apr 2026

ZINIO CHANNEL REV AVG

\$3,995/mo

Store + Library only

STANDALONE ZINIO LOSS

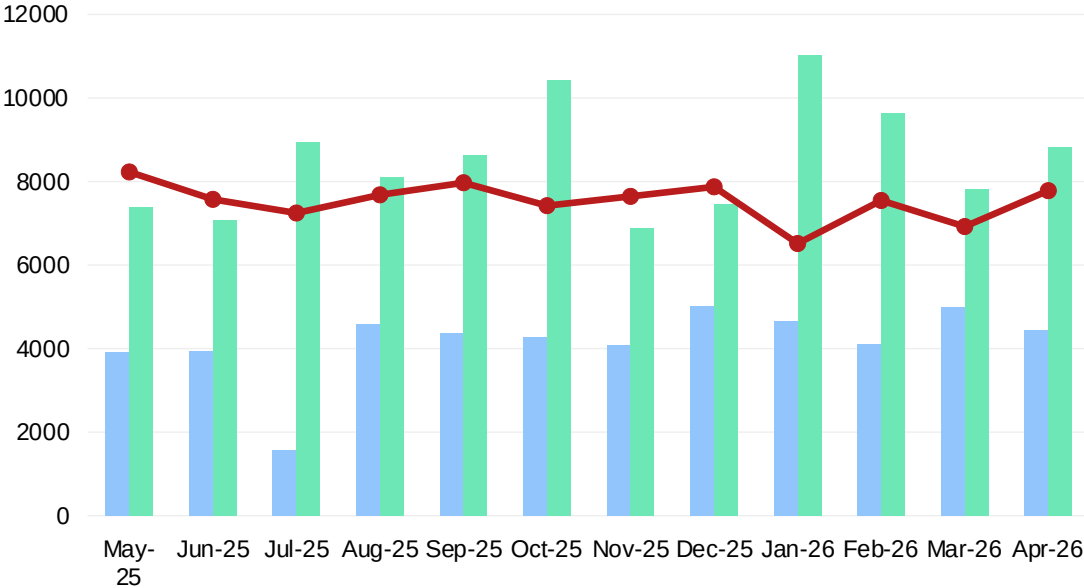

-\$3,511/mo

Channel rev cannot cover invoice

ITUNES AVG (SAME PERIOD)

\$8,165/mo

Flows through AIM App Store acct

The Zinio Problem

Zinio channel revenue has **never covered its own invoice** in any month with available billing data. iTunes/App Store revenue — tracked separately through AIM's own developer account is the hidden subsidy that makes the relationship viable.

2025 REVENUE BY CHANNEL

iTunes / App Store	\$109,529
Apple News+	\$16,372
Readly	\$20,678
EBSCO	\$17,562
Zinio (Store+Lib)	\$53,546
All other	\$28,089

RECOMMENDATION

- Transition all titles to eMagazines — digital edition fulfillment, ANF coding, iOS apps
- Retain 7 iOS apps on eMagazines platform — iTunes revenue (\$8,165/mo) fully preserved
- Exit Zinio and Textalk once migration is validated — single vendor, single invoice
- Expand ANF coding: WD + Taunton 4 as first tranche (~\$729/mo cost, \$500-950 upside)
- Defer back issue library until post-cutover — doesn't block migration

04 / Next Steps

Decisions required · Risks to resolve · Timeline

Immediate Decisions

Go / no-go on eMagazines

Proposal expires Aug 16, 2026. Decision needed to hold pricing.

ANF expansion scope

WD + Taunton 4 recommended as first tranche. Confirm titles and issue counts.

Zinio exit notice

Verify notice period in contract before committing migration timeline.

Cengage status

Confirm eMagazines can cover Cengage before finalizing scope.

Migration Workstreams

Subscriber entitlement continuity

Define handoff workflow for active Zinio subscribers → eMagazines delivery. Omeda integration required.

iOS app transition

7 apps · \$1,750 one-time · Subscriber restore-purchases on launch · Coordinate with Phil Graham on App Store access.

ANF onboarding

Provide eMagazines with PDF assets for new issue ANF coding. Define ongoing submission workflow.

Parallel run period

Overlap Zinio and eMagazines briefly to validate entitlement delivery before full cutover.

Open Items / Risks

Cengage contract verification

MEDIUM — must confirm coverage before external sharing.

Back issue library

MEDIUM — \$11K–\$14K one-time; deferrable. Doesn't block core migration.

ANF rev uplifts unproven

LOW-MED — estimates only; no direct comparables for new titles. Writer's Digest is lowest-risk test.

eMagazines app pricing premium

LOW — \$25–125/mo more than Zinio Pro for app hosting; offset by platform fee savings.
